## **SUMMARY**

Distinguished AWS Champion Instructor with over 7 years' experience designing and delivering cutting-edge training. Hand-picked to train 20+ AWS courses spanning Architecting on AWS, Security Engineering on AWS, Cloud Operations on AWS and more. I bring an infectious passion for simplifying complex concepts. My proven blend of 8 AWS certifications, hands-on cloud architecture expertise, and natural flair for engaging delivery empowers learners of all backgrounds to excel on their cloud journey. Whether unpacking the intricacies of Identity and Access Management policies or making CI/CD intuitive through lively analogies, I make mastering AWS services both fun and accessible. My calling is to demystify the cloud, inspire the next generation of technologists, and help advance skills worldwide.

## **Professional Experience:**

### **AWS Technical Trainer | Amazon Web Services | December 2020 – Present**

- Delivered 100+ AWS training sessions across Architecting, Cloud Essentials, Cloud Operations, and Security domains.
- Designed a custom 3-month curriculum, and trained 63 AWS interns, achieving 100% exam pass rate on the AWS Certified Cloud Practitioner and Solutions Architect certifications.
- Designed custom content to train 25 DC jail early release inmates to achieve AWS Certified Cloud Practitioner Certification with a 100% pass rate.
- Developed 15 SME questions for the AWS Exam Development team for the Developer and Security Certifications.

### **Cloud Security Architect | Florida Safety Council | January 2019 - December 2020**

- Led the migration of over 500 servers to a PCI-DSS-compliant VPC, resulting in enhanced security and performance.
- Designed a Zero Trust and least privilege access network architecture.
- Implemented MFA and least privilege access across all systems per CIS controls.

### **Technical Account Manager | Alorica | March 2018 - January 2019**

- Maintained a 100% issue resolution rating and identified upsell opportunities, contributing to a 23% growth in revenue.
- Developed and curated 15+ hands-on demos and labs.
- Effectively communicated complex technical concepts to clients, delivering timely and impactful solutions.

### **Enterprise Technical Support Engineer | Charter Communications | July 2016 - March 2018**

- Authored 10+ technical wikis read by over 20,000 visitors.
- Collaborated on product development based on client feedback, leading to improved product quality.
- Created technical documentation and delivered training sessions that increased client productivity by 20%.
